# The 5th European Association of Addiction Therapy Conference 2009

5 - 7 October 2009

Cankarjev Dom Cultural and Congress Centre, Ljubljana, Slovenia

## The Conference

EAAT is now recognised as one of the world's leading conferences focussing on understanding the scientific and social bases of addiction.

More than 400 delegates from around the globe attend this dynamic conference which explores a broad spectrum of non-substance dependant and substance-dependant subject material.

Increasingly, addictions have an impact not only on the individual, but also to society in general. EAAT provides a forum to discuss the cost implications on society and therapeutic interventions on a population basis as well.

## About Cortex

Cortex only runs conferences in Neurology and Psychiatry. Established in 2000 under the name of RPA Communications and re-branded as Cortex in October 2007 our programme of events now includes six annual conferences, plus several one-off meetings and product launches each year.

Working with recognised leaders in Neuroscience we facilitate programmes for more than 4,000 delegates per year from around the world and have successfully developed valuable relationships with many of the leading pharmaceutical companies.

At Cortex we believe in industry and science working together to achieve common goals and patient well-being.

## The Programme

The EAAT conference is unique in that it addresses all aspects of all addictions. From genetics and neuroimaging through under-lying neurotransmitter theory at cortical and subcortical levels, to clinical, behavioural, social and environmental factors, the EAAT has sessions for all.

Our aim is to bring all those involved in the research and treatment of addictions together to improve knowledge for the betterment of patients.

EAAT 2009 will include sessions on policy and treatment for the following addictions:

- Alcohol
- Chemical addictions
- Steroids and doping
- Smoking
- Non-substance addiction  
(including eating, gambling and sex)

The programme will also explore key social issues including:

- Cultural differences
- European treatment guidelines
- Special groups and addiction
- Children, adolescents and addiction
- Healthcare professionals and addiction
- Prisons and addiction
- Comorbidities
- Management of pain and addiction
- Overdose
- Outcomes of treatment

The draft programme will be available to view on the conference website shortly: [www.eaat.org](http://www.eaat.org)
